

## **Tape study #2: Kreshendeaux**

Notational Key:

Amplitude (A): Expressed in decibels from -60 to -1.

Frequency: approximate frequencies are given in Hertz:

Low= 0-200 Hz

Mid range= 200-4000 Hz

High= 4000-20000 Hz

Time is indicated along the horizontal axis: 0-45 seconds in length.

Additive synthesis and white noise shaped by filters and the mixing board's sliders and on/off toggles.
